

# Become Certified

---

Unlike training certificates from “certification mills,” the Council-certified Indoor Air Quality Manager requires an effort well worth the time and expense.

Complete application information is available for download [www.acac.org](http://www.acac.org)

Candidates may prepare for the examination at their convenience by studying accepted industry publications. There are no required courses; however, study/review courses are available from a variety of independent providers. The ACAC has no financial or revenue-sharing agreements with these course providers.

Exams are delivered electronically at secure testing facilities throughout North America and major cities worldwide. Exam results are delivered instantly; however, certification is awarded only after the CIAQM certification board review and is granted by unanimous vote.

---

Enhance your professional status by becoming a CIAQM. Visit ACAC at [www.acac.org](http://www.acac.org) or call our friendly staff toll free at (888) 808-8381.

# About ACAC

# Who Is a CIAQM?

**A Council-certified Indoor Air Quality Manager (CIAQM) is involved in the operation of buildings and facilities as a property manager, facilities manager, asset manager, IAQ risk manager or corporate policy-making professional.**

A CIAQM understands the relationships between these responsibilities and the many disciplines related to IAQ.

Candidates for the CIAQM come from a wide variety of positions:

- Property Managers
- Facilities Managers
- Asset Managers
- Risk Managers
- Building Engineers
- Project Managers
- Physical Plant Administrators
- Maintenance Supervisors
- Hospital Administrators
- Assisted Living Facilities
- School Administrators
- HVAC Consultants
- Energy Consultants
- Human Resource Managers
- Operations Supervisors
- Purchasing Agents
- IAQ Coordinators
- Corporate / Institutional Policymakers
