

# Become Certified

---

Unlike training certificates, the Council-certified Environmental Infection Control Investigator and/or Consultant certifications require industry knowledge and an effort well worth the time and expense.

Complete application information is available for download [www.acac.org](http://www.acac.org)

Candidates may prepare for the examination at their convenience by studying accepted industry publications. There are no required courses; however, study/review courses are available from a variety of independent providers. The ACAC has no financial or revenue-sharing agreements with these course providers.

Exams are delivered electronically at secure testing facilities throughout North America and major cities worldwide. Exam results are delivered instantly; however, certification is awarded only after the CEICI/CEICC certification board review and is granted by unanimous vote.

---

Enhance your professional status by becoming a CEICI or CEICC. Visit ACAC at [www.acac.org](http://www.acac.org) or call our staff toll free at (888) 808-8381.
