

Become Certified

Unlike training certificates from “certification mills,” the Council-certified Indoor Environmentalist (CIE) and Council-certified Indoor Environmental Consultant (CIEC) is an effort well worth the time and expense.

Complete application information is available for download www.acac.org

Candidates may prepare for the examination at their convenience by studying accepted industry publications. There are no required courses; however, study/review courses are available from a variety of independent providers. The ACAC has no financial or revenue-sharing agreements with these course providers.

Exams are delivered electronically at secure testing facilities throughout North America and major cities worldwide. Exam results are delivered instantly; however, certification is awarded only after the CIE/CIEC certification board review and is granted by unanimous vote.

Enhance your professional status by becoming a CIE or CIEC. Visit ACAC at www.acac.org or call our friendly staff toll free at (888) 808-8381.

About ACAC

ACAC awards specialty certifications to those who demonstrate industry knowledge and field experience in various IAQ disciplines:

- Environmental Investigation
- Environmental Remediation
- Environmental Infection Control
- Environmental Thermography
- Microbial Investigation
- Microbial Remediation
- IAQ Administration

ACAC provides certifications for every level of experience:

- Technician certifications for individuals with 2 years education and experience.
- Professional certifications for individuals with 8 years education and experience.

ACAC complies with independent third-party standards and guidelines for certification bodies.

- ACAC certifications are CESB-accredited.
- ACAC certifications are compliant with ISO standards 9000, 9001, 9004, 17000 and 17024.
- ACAC certifications are compliant with testing standards published by AERA, APA and NCME.

Who Is a CIE/CIEC?

A Council-certified Indoor Environmentalist (CIE) and Council-certified Indoor Environmental Consultant (CIEC) performs more than just IAQ-related investigations.

A CIE and CIEC understands the relationships between the indoor environment and those who occupy it. They have demonstrated specialized industry knowledge and have extensive experience in developing and proving hypotheses.

The CIE has at least two years of field experience.

The CIEC has at least eight years of field experience.

While some CIEs and CIECs focus on general indoor investigations and writing problem-solving specifications, others focus on highly specialized commercial, industrial and institutional areas that require special knowledge and investigative skills.

- IAQ-related investigations
- IAQ-related consulting
- IAQ-related specification writing
- Special permitting
- Forensic causation
- Proactive monitoring
- And much more...
