

# Become Certified

---

Unlike training certificates from trade associations and their course providers, the Council-certified Microbial Remediator (CMR) and Council-certified Microbial Remediation Supervisor (CMRS) is an effort well worth the time and expense.

Complete application information is available for download [www.acac.org](http://www.acac.org)

Candidates may prepare for the examination at their convenience by studying accepted industry publications. There are no required courses; however, study/review courses are available from a variety of independent providers. The ACAC has no financial or revenue-sharing agreements with these course providers.

Exams are delivered electronically at secure testing facilities throughout North America and major cities worldwide. Exam results are delivered instantly; however, certification is awarded only after the CMR/CMRS certification board review and is granted by unanimous vote.

---

Enhance your professional status by becoming a CMR or CMRS. Visit ACAC at [www.acac.org](http://www.acac.org) or call our friendly staff toll free at (888) 808-8381.

## Who Is a CMR/CMRS?

**The Council-certified Microbial Remediator and (CMR) and Council-certified Microbial Remediation Supervisor (CMRS) is a contractor who performs the remediation of structures and contents that have mold and bacterial contamination.**

A CMR and CMRS understands the relationships between the indoor environment and those who occupy it. They have demonstrated specialized industry knowledge and have extensive experience in performing safe, reliable renovation of areas damaged by mold and bacteria.

The CMR has at least two years of field experience.

The CMRS has at least five years of field experience.

While some CMRs and CMRSs focus on residential remediation, others focus on highly specialized commercial, industrial and institutional remediation, which may involved work while adjacent areas are occupied..

- Structure mold remediation
- Structure bacteria remediation
- Component renovation
- Content cleaning
- And much more...
