

Preparing for the Council-certified Microbial Consultant (CMC) Examination

Examination Reference Materials:

The CMC examination is based on standard industry reference texts, not on a particular course curriculum. Examination items are drawn directly from the following references:

- American Council for Accredited Certification, *Code of Conduct* (www.acac.org)
- AIHA, *Field Guide for the Determination of Biological Contaminants in Environmental Samples*, 2nd edition (Fairfax, VA: AIHA, 2005)
- ACGIH, *Bioaerosols: Assessment and Control* (Cincinnati, OH: ACGIH, 1999)
- IICRC, *Standard S500-2006: Standard and Reference Guide for Professional Water Damage Restoration*, 3rd edition (Vancouver, WA: IICRC, 2006) **OR** ANSI/IICRC, S500-2015, *Standard and Reference Guide for Professional Water Damage Restoration*, 4th edition (Las Vegas: IICRC, 2015).
- IICRC, *Standard S520: Standard and Reference Guide for Professional Mold Remediation*, 2nd edition (Vancouver, WA: IICRC, 2008) **OR** ANSI/IICRC S520-2015, *Standard for Professional Mold Remediation*, 3rd edition (Las Vegas: IICRC, 2015) and IICRC R520-2015, *Reference Guide for Professional Mold Remediation*, 3rd edition (Las Vegas: IICRC, 2015).

Examination Topics:

The 120-question, closed book examination covers **six topics** relevant to microbial investigations and consulting. Approximately twenty-four multiple choice questions are included on each of the following topics:

(NOTE: For a detailed list of the knowledge and skills tested within each topic area, consult page 3 of the CMC application booklet)

1. Biological Agents
2. Potential Exposure-related Health Effects
3. Microbial Investigation Procedures
4. Microbial Sampling Procedures
5. Microbial Remediation Procedures
6. Respiratory Protection

Recommended Study Procedures:

To prepare for the CMC exam, first read the reference books listed above. Then review the following sections from each text in more detail:

WARNING: Limiting your study to only the following pages will put you in danger of failing the exam. The exam assumes a comprehensive knowledge of each reference text. Each of the following references provides ONE example of a place where exam topics may be discussed.
