Preparing for the Council-certified Residential Environmental Remediator (CRER) Examination

Examination Reference Materials:

The CRER examination is based on standard industry reference texts, not on a particular course curriculum. Examination items are drawn directly from the following references:

- American Council for Accredited Certification, *Code of Conduct* (www.acac.org)
- EPA *National Elemental Mercury Response Guidebook, Section 9.4: Removal Procedures*
- EPA, *Voluntary Guidelines for Methamphetamine Laboratory Cleanup*
- New York City Dept of Health & Mental Hygiene: *Guidelines on Assessment and Remediation of Fungi in Indoor Environments* (2008)
- US Code of Federal Regulations 40 CFR 763: Asbestos (<http://ecfr.gov>)
- US Code of Federal Regulations 40 CFR part 61 subpart M: Asbestos (<http://ecfr.gov>)
- US Code of Federal Regulations 29 CFR 1926.1101: Asbestos (<http://ecfr.gov>)
- US Code of Federal Regulations 40 CFR 745: Lead (<http://ecfr.gov>)

Examination Topics:

The CRER closed book examination covers **six topic areas** relevant to indoor environmental remediation. The CRER exam contains 50 multiple choice questions. More information is available in the CRER application booklet.

Topic Areas:

1. Asbestos remediation in the indoor environment: techniques, procedures and regulations
2. Lead remediation in the indoor environment: techniques, procedures and regulations
3. Hazardous materials remediation in the indoor environment: techniques, procedures and regulations
4. Microbial remediation in the indoor environment: techniques, procedures and regulations
5. Chemical remediation in the indoor environment: techniques, procedures and regulations
6. Respiratory Protection

Recommended Study Procedures:

To prepare for the CRER examination, first read the reference books listed above in their entirety. Then review the following sections from each text in more detail.

WARNING: Limiting your study to only the following pages will put you in danger of failing these exams. The exam assumes a comprehensive knowledge of each reference text.
